DETAILED ACTION

Allowable Subject Matter

Claims 12-16 and 21-25 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest either alone or in combination a die bonding apparatus as recited by claim 12, particularly the chip transfer unit that selects the semiconductor chip from the wafer mount fame loaded on the semiconductor pickup stage and transfers the semiconductor chip from the semiconductor chip pickup stage to the alignment stage; and the inspection unit that inspects the status and the position of the land patterns on the mount tape during movement of the mount tape for bonding. Upon further review and reconsideration of the applicants response, the Examiner has determined that the instant application is patentable over the apparatuses of Kim et al. and Jin et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
